

Oregon Water Resources Department

FORM I FOR IRRIGATION USE

1. Please indicate whether you are requesting a primary or supplemental water right, as well as the number of acres that will be irrigated for each type. The acreages must match those shown on the map submitted with your application.

- Primary: _____ Acres
- Supplemental: _____ Acres (supplemental irrigation can be used only when the primary right is not available, and must match the season of the primary right)

List the permit or certificate number of the primary water right that underlies each supplemental right.

Circle one	Season Allowed
Permit/Certificate # _____	_____
Permit/Certificate # _____	_____
Permit/Certificate # _____	_____
Permit/Certificate # _____	_____

2. Indicate the maximum number of acre-feet of water you expect to use in an irrigation season:

_____ acre-feet (typically 2.5 or 3.0 acre-feet per acre)
(1 acre-foot equals 12 inches of water spread over 1 acre, or 43,560 cubic feet, or 325,851 gallons)

3. **For Limited License applications proposing to use water for irrigation.** If for use of stored water, a limited license may be issued for up to one year with a valid contract for stored water per ORS 537.143(9). A limited license may also be issued for irrigation from live flow or groundwater, if the sole purpose is to establish a crop for which no further irrigation will be required after the crop is established per ORS 537.143(6)(a). Please describe the proposed project and indicate if stored water, live flow, or groundwater is to be used. When irrigation is needed to establish a crop, you must justify why more than one year is required.
